

International Conference on Metal-Binding Peptides: Methodologies and Applications

5th - 8th of July 2022, Nancy, France

Welcome to an Interdisciplinary Exchange around Metal-Binding Peptides
in the City Center of Nancy

Key dates

- Call for abstracts: November 2021
- Deadline for submission: 18th of February 2022
- Notification of acceptance: 30th of April 2022
- Inscriptions to the congress: from January 2022
- Early birds registration: until 20th May 2022

Scope of the Conference

The general topic is Metal-binding Peptides (MBP) and includes:

- ▶ Peptides & peptidomimetics: chemical or biological production, synthesized or isolated
- ▶ Metal in general, ionic, complexes or nanoparticles, essential or non-essential metals

Spirit of the Conference: an interdisciplinary & scientific exchange

- ▶ Chemical & biochemical engineering, biology, chemistry, medicine, environment nutrition, catalysis, etc
- ▶ Gathering academic & industrial scientists of various fields
- ▶ A strong synergic effect & an innovative atmosphere by mixing skills :
 - Many communications opportunities
 - Oral presentations & posters

Location in the historical center of Nancy

- ▶ Around 120 participants
- ▶ One spot to increase interactions & discussions

1, rue Grandville - 54000 Nancy, France
